INDIANA UNIVERSITY

Internship Progress Report
Y399: Project in Professional Practice

This status report should be completed no less than once every two weeks but can be submitted weekly. It has four parts: a log of your hours worked; the status of your project; a description of your tasks, activities and observations; and your supervisor's acknowledgment.

I. Log of Hours

Student's Name: **Abhimanyu Chaddha** Semester Term / Year: **Summer 2026**
Canvas Section: **1399 (Fall Section)**

Maintain a log of all hours applied to the internship.

Date	Total Hours	Primary Work Task
07/13	8.27	We received feedback and needed to make an admin prompt, which would effectively control the structure and basics of all follow up letters the advisors could follow.
07/14	8.68	We focused on finishing up the admin tab and worked on testing out its features so it could start to sync real time. This tab would only be accessed by leadership.
07/15	8.60	We noticed some chat history bugs regarding how it wasn't saving when switching to different tabs and looked on fixing that.
07/16	8.47	We started to remove the email and copy button on the letter generating page as they were no longer needed. We also focused on adding additional features to the admin tab, such as revised versions and the ability to add other admins.
07/17	5.97	We focused on adding a references subtab in the admin tab, which allows the prompt to match the expectations of the admin in terms of structure, what section to write, scenarios, etc.
07/20	8.18	We helped fix the format of the revisions subtab in the admin prompt as it seemed cluttered. Also had to fix PII code issues as it still leaking personal information.
07/21	8.40	We added the tone tab, which works in combination with the admin prompt tab to help tailor the letter according to each advisor's tone.

07/22	8.85	We focused on fixing contradictions and bugs in the tone tab since we noticed it sometimes was overriding what was in the admin prompt.
07/23	8.62	We received some feedback regarding the generated letters contents and focused on fixing minor bugs, such as repeated sentences, extra spaces, etc.
07/24	2.72	Intern volunteer event at Random Acts of Flowers in Indianapolis.

Total: 76.75 Internship Accumulated Hours: 300.69 hours

II. Project Status Report

Review the project plan (work breakdown structure) and include here the work tasks from the date range of this report that matches the dates on your project plan. Then, include a project status for each of those work tasks, whether the task is complete or incomplete, and indicate whether you are behind, on or ahead of schedule.

<i>Work Task</i>	<i>Completion status</i>	<i>behind schedule</i>	<i>on schedule</i>	<i>ahead of schedule</i>
(example) Review Project Proposal	Complete			X
	Incomplete			
(example) Complete the Project Plan	Complete			
	Incomplete		X	
Optimization of the app	Complete			X
	Incomplete			
Testing with advisors	Complete			X
	Incomplete			
Deployment and Final Documentation	Complete			
	Incomplete		X	
Fixing bugs after deployment	Complete			
	Incomplete		X	
Bug fixes based off feedback from advisors	Complete			
	Incomplete		X	
	Complete			
	Incomplete			
	Complete			
	Incomplete			

III. Log of Tasks, Activities and Observations

Provide a summary of tasks, activities, and observations for the period of this report. This should be a narrative of the work tasks listed in part II of this report. Include any responsibilities or duties you may have had and what you learned each day, etc. For work toward the project goal, please provide **adequate technical details**. *Submit **evidence** of your work in the form of screen captures as appropriate.*

During this reporting period, I continued working on an AI-powered letter generation application by adding new features, fixing bugs, and making improvements based on feedback from advisors and leadership. A large part of my work focused on expanding the admin panel, where I helped build features such as prompt management, references, revisions, and tone customization. These tools gave administrators more control over how letters were generated while still allowing advisors to personalize the writing style. I also updated parts of the user interface, removed outdated features, and tested new functionality to make sure changes synchronized correctly and worked as expected.

I also spent time troubleshooting and improving the overall reliability of the application. This included fixing chat history issues when users switched between tabs, resolving conflicts between the tone settings and admin prompts, cleaning up formatting problems like repeated sentences and extra spaces, and improving the application's handling of personally identifiable information (PII) to reduce the chance of sensitive information appearing in generated letters.

IV. Supervisor acknowledgement

To the supervisor: upon completion of the required hours, please meet with the student to a) review this report, b) evaluate the student's performance, and c) acknowledge the work described above by signing below, and by initialing each page of the report.

Please return this report to the student for professional development, and for submitting to their internship instructor. **Thank you.**

(Optional): Write any additional comments or feedback to the student in the space provided. Please note these comments will be seen by the student's internship instructor.

CONTINUED EXCELLENCE

ANDREW TELITOCCHI
Name of Supervisor (please print)

 7/29/26
Signature of Supervisor Date

To the student: please submit this form to your instructor via Canvas.
